Appraiser News

Wednesday, August 07, 2013

Allstate Appraisal L.P. hired Scott Sparks, former national chief residential appraiser with Fifth Third Bank. Sparks will be responsible for business development, client relationship management and overseeing the residential quality control divisions at Allstate Appraisal L.P. to ensure valuation documents are prepared in compliance with regulatory standards.

Along with being a certified residential appraiser in Kentucky and Ohio, Sparks has been involved in many aspects of the appraisal industry for the last 25 years with specific industry expertise in the management of residential appraisal policies and procedures.

“We are very excited to welcome Scott to our team; we believe the addition of Mr. Sparks, with his well-recognized commitment to the appraisal industry will further enhance our industry reputation as one of the top performing AMCs, where quality and service remains the centerpiece of our entire business model,” said Steven Albert, MAI, SRA, Allstate Appraisal’s executive vice president.

Prior to joining Allstate Appraisal L.P., Sparks earned a strong industry reputation as a capable and committed valuation professional and has done so while leading the appraisal division of one of the nation’s largest and most respected lending institutions, Fifth Third Bank. While at Fifth Third, Sparks oversaw and managed appraisal quality, AMC management and appraisal training. Sparks also worked for Provident Bank and US Bank during his 15 years working at lending institutions.

Prior to beginning his career in the lending environment, Sparks owned an appraisal company alongside his father.

“I’m looking forward to joining a longstanding firm with such a solid reputation; the opportunity to continue delivering the high level of quality and service that Allstate is known for, and to constantly seek ways to improve upon them,” Sparks said.

Allstate Appraisal, L.P. is a 54 year old privately owned appraisal firm, headquartered in Illinois, specializing in national residential and commercial valuations, quality control services, investigative appraisal review services, real estate-related litigation support services and expert witness testimony.
